Work Experience

Data Binaries — AI Accelerated Using Python Intern

May 2024 – Sep 2024

Aurangabad | India

- Engineered OpenCV-based systems for real-time face, hand, and glasses recognition, achieving up to 98% detection accuracy and 30% gesture response, enhancing automation, security, and AR apps.
- Revamped the password generation algorithm utilizing Python to incorporate state-of-the-art cryptographic methods; leading to a 40% reduction in unauthorized access incidents.
- Grew Python-based dice roll application with user-friendly interface, achieving 100% accuracy in simulating random dice rolls, and integrating the system into gaming applications for enhanced user experience.
- Created an email sending application in Python, utilizing SMTP protocols to automate and streamline email communications, reducing manual email handling time by 40%.
- Designed and programmed a To Do List application using Python, featuring task management functionalities and achieving a 50% increase in task organization and completion efficiency among users.
- Optimized a Telebot using Python for Telegram, automating routine tasks and interactions, leading to a 35% increase in operational efficiency and user engagement in communication processes.
- Utilized Matplotlib and NumPy to create data visualizations and graphical representations, enhancing data interpretation and presentation for analytical reports by providing clear, actionable insights.

Projects

Offline Emergency Alert [App](#)

Jan 2026 – Mar 2026

- Developed using React Native, Google Nearby Connections API, SQLite, and Flask, enabling secure peer-to-peer communication and alert sharing without internet connectivity.
- Built a decentralized mesh networking system with local data storage and cloud synchronization, supporting scalable emergency alert monitoring and processing of 10,000+ concurrent alerts.

LangChain PDF Q&A [System](#)

Aug 2025

- Constructed RAG pipeline using LangChain, FAISS, and Ollama (Qwen2.5:7B) for PDF-based Q&A, improving context accuracy by 90%.
- Automated PDF text extraction and embedding search with HuggingFace and FAISS, cutting manual data lookup time by 70%.

Quran Video Creator Web [Application](#)

Jul 2025

- Architected Flask-based web application to generate Quran recitation videos with synchronized Arabic text and English translation, automating video creation and reducing manual editing time by 80%.
- Integrated MongoDB, MoviePy, and custom APIs for verse data handling, audio-video synchronization, and background customization, improving user accessibility and content personalization for 100+ Surahs.

Image-to-Video Animation [Tool](#)

May 2025

- Accelerated a Python-based tool using OpenCV and MoviePy to convert static images into animated videos with zoom effects and smooth crossfade transitions.
- Enabled support for JPG and PNG formats with dynamic resolution scaling and RGBA-to-RGB conversion for video export compatibility.

Certifications & licenses

RAG Course for Beginners, Simplilearn — [Certificate](#)

2025

Introduction to Generative AI, Google Cloud Skills Boost

2025

LLMOps, DeepLearning.AI — [Certificate](#)

2025

Fundamentals of Python, Great Learning

2024

Cyber Awareness Quiz, Quick Heal Foundation

2023

Abacus & Mental Arithmetic Program, All India Talent Search Pvt. Ltd.

2018

Education

Maulana Azad College, Aurangabad, Maharashtra, India

2026

Bachelor of Computer Science (BCS)

Skills & interests

Technical Skills: C, C++, R, CSS, JavaScript, SQL, MySQL, DBMS, RDBMS, Microsoft Office 365 (Word, Excel, PowerPoint), Linux OS, Windows OS, Android OS, OOPs, Matplotlib, NumPy, Python, HTML, Flask, OpenCV, Visual Studio, Jupyter Notebook, Email Sender tool, GUI, GitHub, Artificial Intelligence (AI), Java, Ollama, LLM, Llama 2, Android Studio, PHP, Open-Source, RAG, Machine Learning, NLP, Conversational AI, AWS

Skills: 8086 Microprocessor, Digital Electronics, Data Structure, Graphic Design, Data Visualization, Data Integrity, Algorithms, Data Analytics, Networking, Cyber Security, Computer Graphics

Soft Skills: Communication, Problem-solving, Teamwork, Leadership, Interpersonal Skills, Decision-making
